Thyristor-controlled Battery Chargers & Power Supplies • Step-up Converters • Static Switches

FOR IMMEDIATE RELEASE

Schaefer, Inc. Offers New Short Form Power Conversion Systems Catalog

Date: April 25, 2007

Editorial Contact: Susan Cervenak, scervenak@schaeferpower.com

Ashland, MA -- Schaefer, Inc, has published a new short form catalog detailing its complete line of ac/dc switchmode power supplies, battery chargers, dc/dc converters, dc/ac inverters and ac/ac frequency inverters.

The 15 page catalog uses charts to show the diverse product offerings, which range in power from 50W up to 40kW liquid cooled designs. A host of mechanical and electrical options for the products are also detailed. Included is information regarding Schaefer's thyristor-controlled products, with power ratings up to 500kW.

The catalog also features Schaefer's vast design solution experience, which offers quick turn, low NRE, custom or modified products for even the most demanding industries, such as railway controls, automotive, power generation, process control, telecommunications, military and aircraft.

Schaefer's entire short form catalog can be downloaded from their website at www.schaeferpower.com.
